PCL Signature Order Instructions

To create a signature font we need an **actual copy of this order form**. Do not scan and email this form to us. Sign this form **inside** the box and mail or ship it to us. Signature orders must be prepaid. **We do not accept purchase orders** for signature fonts.

If you're using PCL fonts in Windows, we do offer a font downloader that works from within Windows & from a batch file or the command line. The downloader costs \$99.50. Use this program from a batch file or the command line to send fonts **with no user interaction**.

Step 1: Print a few copies of the order form page. Before entering any data, practice signing your name(s) inside the box. A fine tip felt or gel pen works best. Pick the best looking signature and use that form. No part of your signature may touch or cross the lines that make up the box. Your signature will print at exactly the same size shown in the box.

Step 2: If one person has signed their name inside the box, the cost to convert that to a font is \$139. If the signature font must print two signatures at once, then both parties must sign inside the box and the cost will be \$189. If the signature font must print three signatures at once, then all parties must sign inside the box and the cost will be \$239.

Step 3: All signatures are created at 300 dpi by default. If you want a higher resolution 600 dpi signature, check the box for that option and add an additional \$50 to the cost.

Step 4: Normal processing time is 7 – 10 business days after **receipt of the order form** and payment. If you are in a hurry, you can add \$50 to the cost for **rush service**. Check the box on the order form for this. This will cut processing time to 2 – 3 business days

Step 5: Select the type of return shipping you want. Email is the fastest way to receive a signature. If you select email, make sure **you** white list the domain **barcodingfonts.com** in your spam filter or firewall. The download email will come from this domain. You can select both email and physical delivery together to receive a download and back up CD.

Step 6 Options:

Line under signature. We can add a line under your signature. Check this box and include an extra \$30 for each line we add. (2 signatures need 2 lines = \$60.)

Title next to or under signature. We can add a title next to or under your signature. Check this box and include an extra \$50 for each title we add. (2 signatures need 2 titles = \$100.)

Resize a signature. If you can not sign in the one inch tall box, you can sign on a separate piece of paper and have us resize the signature to fit the available space. Check this box and include an extra \$35 for this service. Specify the height you want for the signature.

Modify an existing font. If you must use a specific font file, you can send a copy to us and we can possibly replace the old signature in it with a new one. Check this box and include an extra \$25 for this service.

Specify selection string. If your application must send a specific command string to the printer to select your signature, we can match any legal command string. Check this box, type out your selection string, and include an extra \$35 for this service.

Specify starting selection character. If your application must send a specific character to the printer to print your signature, we can match that starting character. Check this box, specify your starting character, and include an extra \$35 for this service. Note most signatures are more than one character long.

Step 6: Fill out the payment section and the contact sections of the form. Please fill out all fields so we can contact you in case of a problem.

Step 7: Send us the form, along with your payment via mail, UPS, FedEx, or DHL.
